Trainings

Foundation Course Training (FCT): Every selected teacher attends a Foundation Course Training for 16 days in activity based joyful teaching methodology. It includes a three day stay in a ECE school. The trainee interacts with the community also and learns about the parents' role in community governance.

Monthly Lesson Plan training (MLP): Every teacher is trained for two days every month in teaching of the next month's Lesson Plan.

TEACHER TRAINING

Learning action songs (Abhinayam)

Teachers Preparing Teacher Learning Material (TLM)

Maa Vooru Maa Badi – Our Village Our School

Impact of the programme

The community governed ECE school programme pioneered by CDR and funded by SERP since 2008 has provided joyful education to 17,270 children in 1160 villages during the year 2014-15. It is spread over tribal areas of Adilabad, Warangal, Mahabubnagar, East Godavari, Karimnagar, Nalgonda, Ranga Reddy, Nizamabad, Krishna and Medak districts. Community participation and ownership have become the hall mark of this programme. The mothers have named the school as *Maa Vooru Maa Badi* or Our Village Our School. The mothers in Adilabad district call the programme *Mava Nate Mava Sada*. The School Committee and the Mandala Mahila Samakyas have proved to be the biggest strength for ensuring effective functioning of these schools in some of the most far flung areas in the State.

Society for Elimination of Rural Poverty (SERP), our partner organization has been an unstinting supporter of the concept of community governance. It never spared any effort in extending necessary guidance and opportunity to CDR for implementing this programme. CDR is grateful to the CEO and his colleagues in SERP for making this happen.

The ECE programme has provided enormous joy to thousands of children in helping them to learn and prepare for formal education. The well structured lesson plan adopted by the ECE schools gave more than ample time to the children for creative activities, nature watching, story telling, song and play. The school built basic confidence in the child to talk and carry on a conversation. It sowed the seeds of curiosity in the child to question and to know. The children also inculcated personality molding good habits.

This programme has also provided a great opportunity for educated women from the vulnerable sections in the villages to make a valuable contribution. After selection and working as teachers, they have completely transformed their personality and attained a pre-eminent position in their villages. All the teachers brim with new found confidence and a strong sense of self esteem. The services of these teachers are now often sought by the community for different purposes also. Similarly, the Cluster Resource Persons who are also identified by the community are widely respected for their role in supporting and guiding the teachers and the school committees.

The ECE schools that are taking care of the child for the whole day have made it possible for hundreds of mothers to go for work and earn an extra wage for the family. In scores of families the ECE school released the older girl sibling from the responsibility of attending to her younger brother or sister and helped her to go to a school herself.

Meetings of the Badi Committee members

Child Education Sponsorship

CDR is finding donors who wish to contribute their bit in providing 10 years of continuous education to children from vulnerable groups. During the last four years 63 children belonging to different Scheduled Tribes from three districts of Adilabad, Warangal and Mahabubnagar are receiving support from donor partners. All children are admitted in Class I in Sarada Vidhyadhamam, Hyderabad. It is a residential school of high values.

The district wise details are as below.
